

Hi!

Today the Icelandic group met as usual on Thursday. We are preparing our visit to Lithuania. Right now we are working on a project about the energizers which are used in Iceland. Next week we have to finish all our preparations. Yesterday evening we had a meeting with the parents of the group. They got all the information what the group will be doing in Lithuania. The parents expressed their pleasure with this plan. Friday in a week we are starting our trip. We all are looking forward meeting our new friends. This picture was taken of the group today, unfortunately some of the members were missing. But they will be in our next picture 📸
