

My name is Aleksandra Vbraski and I was born 1. December 1992. I live in Höfn like you probably already know. I'm from Serbia but we moved to Iceland when I was 5 years old and I have lived here since then.

I live with my family in the middle of the town. It is only 200 meters from school, stores and everything. In my house are my mother, Natasa (39) and my younger brother, Nikola (12).

I go to school called Framhaldsskólinn í Austur-Skaftafellssýslu or FAS. I'm learning sociology there. I plan to graduade next year.

I have always worked with school but this years I decided not to work and study more. I have worked at place like a tourist agency, fish factory & kindergarten teacher. The job that I feel best suited to me the was when I was working for the travel agency, and in the future I plan on keeping on working in the tourism cause I feel it suits me best.

My future plans are to finish stewardess training and then go and study tourism at the university.

I like hang out with my friends, travelling, listen to music, be on computer. I like to do most things. I think that covers most of it.
