

Hi!

My name is Óskar Þór Ingvarsson and I'm 18 years old. I come from the town Höfn in Hornafjörður which is a small town on the southeast-coast of Iceland. The town has only about 1600 inhabitants.

I live with my family in the middle of town and im only 300-400m away from my school. My family consist of myself, my mother, my father and my younger brother(11 years old).

I go to a school called FAS (abbreviation for Framhaldsskólinn í Austur-Skaftafellssýslu). Im studying mostly maths, physics, natural history, chemistry, biology, languages and other similar subjects.

In the winter I mostly go to the gym and practice basketball but in the summers I mostly just go on music festivals and have a good time! My main hobbys are hanging out with my friends, chill on the computer, watch movies, going too the gym and partying!

I think this covers up to the biggest things!
